2D / 3D Mammography Scans: Understanding the Difference

It is important to POM MRI & Radiology Centers that we educate our patients so they can be better informed when making decisions regarding their care and exam options. Please read the information below and select the best option for you at the bottom of this page.

2D and 3D Explained

A mammogram is a low-dose X-Ray that allows radiologists to look for changes in breast tissue. The gold standard in breast cancer screening has been 2D digital mammography, which takes two X-Ray images of the breast, one from the top and one from the side. This type of exam identifies a large number of breast cancers, but its value is limited: the images are flat, making them difficult to interpret because the overlapping tissue can hide cancerous tumors.

The latest breakthrough in mammography screening is the use of 3D mammography. 3D mammography is an imaging procedure in which an X-Ray moves in an arc over the breast, taking multiple images from different angles. The 3D images are synthesized by a computer into thin, millimeter images, making it easier to see tumors. The radiologist reviews about 200-300 images with 3D mammography compared to only four derived from a 2D mammogram.

Why Choose a 3D Mammogram?

- Detects 41% more invasive cancers
- Reduces the callbacks for a second look by 40%
- Takes just 30 seconds
- Has been approved by the FDA
- Is appropriate for all women

Most insurance providers, including Medicare, cover the cost of a 3D mammogram. However, a few still do not.

4. **Please let us know what you have decided is the best option for you:**

   ○ YES. I would like a 3D mammogram. I agree to be financially responsible in the event my insurance company does not pay for the 3D mammogram exam.

   ○ NO. I do not wish to have a 3D mammogram today.

PATIENT'S BILL OF RIGHTS

Florida law requires that your health care provider or health care facility recognize your rights while you are receiving medical care and that you respect the health care provider's or health care facility's right to expect certain behavior on the part of patients. You may request a copy of the full text of this law from your health care provider or health care facility. A summary of your rights and responsibilities follows:

- A patient has the right to know who is providing medical services and who is responsible for his or her care.
- A patient has the right to know what patient support services are available, including whether an interpreter is available if he or she does not speak English.
- A patient has the right to be given by the health care provider information concerning diagnosis, planned course of treatment, alternatives, risks, and prognosis.
- A patient has the right to be given, upon request, full information and necessary counseling on the availability of known financial resources for his or her care.
- A patient who is eligible for Medicare has the right to know, upon request and in advance of treatment, whether the health care provider or health care facility accepts the Medicare assignment rate.
- A patient has the right to receive, upon request, prior to treatment, a reasonable estimate of charges for medical care.
- A patient has the right to receive a copy of a reasonably clear and understandable, itemized bill and, upon request, to have the charges explained.
- A patient has the right to impartial access to medical treatment or accommodations, regardless of race, national origin, religion, handicap, or source of payment.
- A patient has the right to treatment for any emergency medical condition that will deteriorate from failure to provide treatment.
- A patient has the right to express grievances regarding any violation of his or her rights, as stated in Florida law, through the grievance procedure of the health care provider or health care facility which served him or her and to the appropriate state licensing agency.
- A patient is responsible for providing to the health care provider, to the best of his or her knowledge, accurate and complete information about present complaints, past illnesses, hospitalizations, medications, and other matters relating to his or her health.
- A patient is responsible for reporting unexpected changes in his or her condition to the health care provider.
- A patient is responsible for reporting to the health care provider whether he or she comprehends a contemplated course of action and what is expected of him or her.
- A patient is responsible for following the treatment plan recommended by the health care provider.
- A patient is responsible for keeping appointments and, when he or she is unable to do so for any reason, for notifying the health care provider or health care facility.
- A patient is responsible for his or her actions if he or she refuses treatment or does not follow the health care provider's instructions.
- A patient is responsible for assuring that the financial obligations of his or her health care are fulfilled as promptly as possible.
- A patient is responsible for following health care facility rules and regulations affecting patient care and conduct.
- Inform his/her provider about any living will, medical power of attorney or other directive that could affect his/her care.
- Be respectful of all the health care providers and staff, as well as other patients.

I acknowledge that I have electronically received and read a copy of the Patient's Bill of Rights and Responsibilities.

CO-PAYMENTS: Due each visit.

MEDICARE: We participate and accept assignment with Medicare part B; we will scan your Medicare card for our files. Deductibles that are not met are your responsibility. Patients without secondary insurance are responsible for the 20% co-insurance.

HMO INSURANCES: We will submit charges for HMO insurances; however, co-pay amounts will be collected prior to your appointment. In order to be seen any referrals required by your insurance company must be in our office before or at the time of the exam. Otherwise, you will be responsible for the charges from your visit or your appointment can be rescheduled.

COMMERCIAL INSURANCES: Although we may participate with some third-party payment plans, we perceive your insurance coverage as a contract between the insurance company and you. Payment for exam is expected at the time of service. We will assist you by providing appropriate insurance forms for your reimbursement. If deductibles are not satisfied, we will expect payment in full at the time of service.

SELF PAY: Patients with no insurance coverage are expected to pay in full at the time of service using any of these payment options, CASH or MAJOR CREDIT CARDS.

PATIENT BALANCES: Payment is due upon receipt of statement. Balances not paid within 30days of initial billing are subject to collections. Should your account be turned over to collections, you will be responsible for all costs of collection and/or attorney's fees.

I have read the above office payment policy and as a patient, or legal guardian of a minor or impaired patient, I understand that regardless of any insurance coverage I may have, I am responsible for payment of my account. I have read, understand, and agree to the above office payment policy in accordance with the terms and conditions set forth in the policy of this office.

I hereby attest that I have given accurate insurance information to the best of my knowledge for complete and timely payment. If authorization is not given by my insurance company, I agree to pay the balance in full.
